specialty retail solution

“

Transacta has created a fully customisable, pay as you go, complete Point of Sale solution for fashion and specialty retailers that can integrate with a range of existing packages

”

Specialty retail

Transacta’s Specialty Retail Point of Sale Solution bundles hardware, software and services together from key vendors operating in the retail space in Australia. It is targeted at mid-sized fashion and specialty retailers in the Australian market who are looking for a low fixed cost, scalable, industry-leading solution to integrate with their existing financials or ERP system.

Our Solution

The One Price Solution - pay as you go

The Specialty Retail Point of Sale Solution is packaged at a single cost per store per month from as low as \$520.00* This fixed cost implementation means there are no hidden surprises. No capital outlay means you save the cash for your growing business.

More Benefits

- Reduced risk through a market tested and proven compatible hardware, software and services combination
- Scalable solution - As your business grows, your Transacta Specialty Point of Sale Solution will grow with you.

**Terms and Conditions apply*

Custom made software

Many customers require specific customisations to the software. Transacta is a highly configurable system and many customisations can be satisfied using configuration. The Specialty Retail Point of Sale Solution includes any customisations that can be resolved via configuration, however, customisations that require code changes are charged separately.

Integrate

The Specialty Retail Point of Sale Solution can be integrated with your existing Enterprise Resource Planning (ERP) or Financials and accounting package. Optional integrations include Time and Attendance / Payroll / Rostering, Customer Relationship Management (CRM) and Merchandise Planning.
